SUMMARY

+3 years experienced in IT and an expert frontend developer, interested in writing codes, skilled at developing complex solutions, creating responsive designs, possessing strong creative thinking skills, high energy and integrity. Ability to create algorithms effectively, and interact positively and communicate appropriately with team members. Quickly grasp new technologies and concepts to develop innovative and creative solutions to problems. Always eager to learn various technologies, tools and libraries. Especially interested in the **Front end/Web Development, HTML , CSS, JavaScript/TypeScript, React Redux** Excited to learn new things and improve, lifetime student. I started learning Node.js and Angular to use in different projects. I have deploy my projects on Github, Netlify and Vercel.

WORK EXPERIENCE

Upwork (Freelancer)

Jan 2022 – Present

Front End Developer

- Developed interactive, responsive and scalable frontend using HTML5, CSS3, JavaScript ES6, React,
- Designing a website with HTML, CSS, SASS(SCSS) and Bootstrap-5 codes,
- Support HTML and CSS projects using JS Dom manipulation and event listeners,
- Developing the payment page of the e-commerce website with JS functions using DOM, iterator, callback functions, string array functions and events,
- Requesting apis using Async, Await and Fetch structures to view data from various platforms,
- Enabling customers to make transactions on their websites using json, local storage, and array methods,
- Using state hook and component structures in various projects
- Working with React-router, bootstrap and axios libraries for user-friendly preparation of prepared websites,
- Combined Material UI and Semantic UI libraries to achieve better UI experience,
- State management applied using React States and Redux,
- Built a Dashboard page showing data related to users integrated with Database,
- Experienced in writing modular and reusable codes, using build tools and package managers,

- Studied on Computational Thinking, Operating Systems, Linux, Version Control Systems(Git & Github), Software Development Life Cycle (SDLC),
- Used SCRUM & Agile methodologies and JIRA while working on individual & group projects.

National Defense Department

Jun 2015 – Jun 2021

Project Manager

Having the ability to represent, taking care of his appearance (presentable), good diction, strong negotiation ability

- Strong interpersonal skills, high persuasiveness
- High personal motivation and sense of responsibility
- Stable and disciplined, able to work in an intense work tempo, able to adapt to flexible working hours
- Ability to question, research and analyze
- To follow the personal rights of the personnel
- Conducting judicial and disciplinary investigations
- To report the transactions of the personnel who will join the institution and leave the institution
- Planning and guiding assigned tasks
- Creating employee personal files
- Performing relevant HR reports
- Recruitment and orientation processes of newly joined personnel to be executed
- To carry out all personnel rights of the personnel in accordance with the regulations
- Compliance with deadlines for assigned tasks

TECHNICAL SKILLS

HTML | CSS3 | JavaScript | ReactJS | Redux | SASS | Bootstrap | Material-UI | Axios | Yup | Python | Linux | SQL | SQL Lite | Git | GitHub | APIs | Agile | Scrum | Jira | SDLC | OOP | RESTFUL API | SEO | Npm | Computer Science

SOFT SKILLS

Analytical Thinking | Problem-Solving Abilities | Self-Motivated | Strong Communication | Project Management | Planning | Time Management | Adaptability | Continuous Learning | Collaboration & Teamwork | Coaching Mindset | Resilience | Curiosity | Emotional Intelligence | Creativity | Team Leadership | Entrepreneurship | Business Discipline

MY PROJECTS

- **Sass Project :** In this project, portfolio website is designed using HTML and SASS (SCSS) codes for style. In this Sass/SCSS project, I structured a project into separate files and folders. Skills/Tools : HTML, Sass/SCSS

- **Bootstrap Project :** In this project, the Clarusway School Website was designed using HTML and Bootstrap-5 for styling. The purpose of this Bootstrap-5 project is to enable the use of Bootstrap-5 (class names) for styling and to take advantage of CSS Frameworks. Skills/Tools : HTML, CSS Frameworks, Bootstrap-5
- **ios Calculator :** In this project, the goal is to make a functional and visual clone of the calculator of an iOS device. Skills/Tools : HTML, CSS Frameworks, JS Dom Manipulation and Event Listeners.
- **To - Do App :** In this project, a simple To-Do application was made using the array structure. User can add task from browser, mark tasks as completed and delete them. Completed/total number of tasks can be displayed with a counter. Skills/Tools : JS Dom Manipulation and Event Listeners.
- **Checkout Page :** Our goal was to develop a real e-commerce website's checkout page for that project. There is a cart for buying products, and we can increase or decrease the number of products. By changing a parameter in the cart, our js functions calculate the cart total price. DOM, iterator, callback functions, string-array functions and events are used in our page. Additionally, we can remove products from the cart by clicking the remove button and decreasing the amount to "0". In that case, our page asks us to delete the product from the cart. As soon as you confirm the deletion, the sour chart total is recalculated by the js functions. Skills/Tools : DOM, Iterator, Callback functions, String-array functions and Events.
- **World Flags App :** The goal of this project is to make an api request from <https://restcountries.com/> and to display the desired data about the countries. Skills/Tools : Async, Await and Fetch.
- **Movie Ticket App :** In this project, it is aimed to create an application for a website that sells online event tickets. Users can view the events, view the available seats for the event they have selected, claim what they want among them and see the amount they will pay. Skills/Tools : Json, Local Storage and Array Methods.
- **Weather Condition App :** The purpose of this project is to make a weather application using the <https://api.openweathermap.org> api. It is to bring and display the weather conditions of the location desired by the user. Skills/Tools : Async await methods.
- **Movie App :** In this project, it is aimed to display cinema posters by using the tmdb api. There is a search feature according to the entered word. Skills/Tools : React-router library, Bootstrap library, Axios library and Firebase
- **Firecontact App :** In this project, it is aimed to create a contact list using firebase realtime-database. Adding, deleting and updating contacts can be done. Skills/Tools : Firebase realtime-database library, Semantic-ui library and React-toastify library.
- **Redux Store App :** In this project, it is aimed to create a store app using Redux and store the project states in the store Redux, and explain how to reach the store variables and methods from other React components and use them. Skills/Tools : Redux, React components
- **Fireblog App :** In this project, it is aimed to create blog posts using firebase realtime-database and display them on the dashboard. Adding, deleting and updating blog posts can be done. In the project, firebase realtime-database library was used for storing data, material-ui library for styling, react-router library for page transitions, formik and yup libraries for form structure and validation, and react-toastify library for notifications. In addition, firebase was used for login and authorization processes. Skills/Tools : Firebase realtime-database library, Material-ui library, React-router library, Formik and yup libraries, React-toastify library, Firebase.

Clarusway-IT BootCamp Course

Jan 2022 – Jul 2022

Selcuk University

Sep 2020 – Sep 2024

- Law

Anatolion University

Sep 2016 – Sep 2020

- International Relations

CERTIFICATIONS

- Clarusway Frontend Developer Course Certificate Aug 2022
- Clarusway React Course Certificate Aug 2022
- Clarusway JavaScript Course Certificate Jul 2022
- Clarusway HTML-CSS Course Certificate Jun 2022
- Sololearn-Javascript Certificate Jun 2022
- Sololearn-Responsive Web Design May 2022
